PROFESSIONAL SUMMARY

Senior Software Engineer with 8+ years building and shipping production enterprise applications on the Microsoft .NET stack (C#, .NET 8 / .NET Core / .NET Framework). Full-stack delivery across backend architecture, REST and SOAP API design, and modern frontends in Angular and Next.js, with hands-on experience in FinTech, HealthTech, Logistics, Diamond trading, and Blockchain / Web3. Comfortable owning features end to end, from requirement analysis and design through third-party integrations, database work, and release, and quick to pick up new tools, frameworks, and business domains as a project demands. I have **Taiwan Gold Card visa** so I can join immediately without work visa sponsorship.
